### CERTIFICATION

Organic

Founded in 2017 by a group of farmers of Encarnación Ocotepeque who were worried about the contraband of coffee to Guatemala, as this was affecting the livelihood of the population. The coffee farmers also had the goal of producing organic coffee, that would not only benefit the environment but also take their coffee to newer markets. In 2020, they achieve this goal by obtaining their organic certification and impacting more than 100 members and their families. In the process of obtaining RFA certification. The farmers are provided with training programs and visits by agronomists.
